

System Definition

Entities:

1. STUDENT
2. TEACHER
3. THEME
4. TODO
5. COURSE
6. HOLIDAY

Description:

Occasionally, our lives are overwhelmed by trivial matters of daily routines, making us forget important things. Therefore, reminding us of the smart calendar app is very necessary.

Users can be either students or teachers. As a student, the user may configure the theme of the app, create TODO events, take courses and view school holidays. As a teacher, the user may configure the theme of the app, create TODO events, be responsible for (edit) courses and publish school holidays.
